Citizen Comment

Ken Streater – Citizen – Not seeing chances for community involvement for important decisions, executive sessions are not posted on agendas, it appears items are being discussed outside of the board meeting with at least three members or more

Lane Romanick & Olivia Thomas – Students - Obsidian Middle School updates

Bradee Gilmore – Student – Redmond High updates

Reese Evenhus – Student – Ridgeview High Updates

Lena Berry – Concerned the Board is not focused on looking out for the district, students and staff, but more on their political ideology. Redmond Collective Action will be organizing a weeklong adopt a school campaign to show support of the staff and students.

Local Service Plan – High Desert Education Service District (HDES) – Paul Andrews & Matt McGowan

Paul Andrews presented the 2022-23 Local Service Plan. HDES provides a menu of services to the four surrounding districts in Crook and Deschutes Counties. These services include the following core services:

- Administrative and Support Services
- Services for Children with Special Needs
- School Improvement Services
- Technology Services

Director Goodrich moved to approve the 2022-23 Local Service Plan as presented. Vice Chair Summers seconded the motion. Motion carried, 5-0.

HMK End of Month Report – Chad Franke

The January End of Month Report was available in the agenda packet so Chad Franke presented updates for February. We have received the 50% construction documents for Vern Patrick and they are

with our cost estimator and CMGC who will be getting estimates. We have also received the Tom McCall and Elton Gregory construction documents as well. Both of those projects will start at the beginning of summer. OMS construction documents have been completed and sent to the City of Redmond for permitting. Those documents are out to bid on the OMS project, and bids are due this Thursday. The CMGC will review the bids and put together a GMP (guaranteed maximum price), the cost of the construction of the building. Construction will start on construction at OMS during spring break. Hugh Hartman's major HVAC renovation bid set is completed. Because of supply chain issues, we are determining what we can be done this summer and what might have to wait until the following summer. The seismic grants for Tumalo and John Tuck are in the process of being completed and submitted. OMS will be the first school that will receive the safety and security package, and then we will move to the other schools. The Redmond High roofing project has moved to next summer and will be tied into the HVAC renovation. Tumalo roofing project is currently out to bid and expected to be done this summer.
